Kinoton digitises three wee Austrians...

Bavaria, Germany

THREE AUSTRIAN-BASED theatres have since purchased a complete d-Cinema solution and full-service from Kinoton. These include the Stadtkino in Hallein; and the Stadttheater

(Photo © Stadtgemeinde Hallein)

in Gmunden (both twin-screens), and the single-screen Top Kino in Vienna. Kinoton installed equipment that included Barco DP2K-10Sx projectors and, in all auditoria, its proprietary KRS remote maintenance system. The Stadttheater in Gmunden also boasts the integrated 3D system from Dolby.

...and 'eyes' up Galway

Galway, Eire

THE EYE CINEMA, meanwhile, one of the Emerald Isle's most modern of cinemas,

has completely switched to Kinoton 2K and 4K d-Cinema projection solutions (DCS), installing Kinoton's projection since opening in 2005. While two of its auditoria were equipped with Kinoton d-Cinema projection solutions, with integrated 3D systems, back in 2009, today the remaining six, which used analogue FP 50 D projectors from Kinoton, have also been upgraded with Kinoton DCS systems.
